Gender markers	GEM1 - Contributes to gender equality/women’s empowerment in a limited way
Target group(s)	Governments, NGOs, civil society, academia and business,
External partner(s)	Governments
Overall budget / Total project budget	250,000.00

2. Executive summary of the project

The Environmental Performance Review (EPR) Programme assists and supports ECE member countries in improving their environmental management and performance; promotes information exchange on policies and experiences among countries; helps in the integration of the environmental policies into economic sectors; promotes greater accountability to the public; strengthens cooperation with the international community; and contributes to the achievement and monitoring of relevant Sustainable Development Goals.

An EPR is an assessment of the progress a country has made in reconciling its environmental and economic targets and in meeting its international environmental commitments. As a voluntary exercise, the EPR is undertaken at the request of the country under review. The EPR process consists of the following main steps: Preparation, Review Mission, Expert Review, Peer Review, Publication, and Launch.
