2. Executive summary of the project

The TEM Project constitutes a forum for cooperation between the governments of TEM Member States, which creates standards, good practices and guidelines for systemic and strategic issues related to road infrastructure management. In its activities the TEM Project takes the perspective of national government administrations, and focuses on the issue of sustainable development Vision: The TEM Project aims at obtaining the role of a substantive partner for the UNECE and the Inland Transport Committee on road infrastructure management, thus supporting the UN and TEM Member States in achieving the sustainable development goals by implementing the Project strategic initiatives.
