External partner(s)	
Overall budget / Total project budget	23,875.00

## 1.2. Executive summary of the project

The project is aimed to support implementation of the Programme of Work of the Committee on Forests and Forest Industry and its subsidiary bodies. The project promotes cooperation with member States, regional entities and other partners for sustainable forest management, and the sustainable use of forest products. The project contributes to collection, validation and dissemination of information and results of research and analysis related to sustainable forest management and the sustainable production and consumption of wood products. The project will facilitate the exchange of national experiences and best practices and monitor progress on achieving sustainable forest management using key forest sector indicators.
